Education

Gulzar Group of institutions

Bachelor of technology in Computer Science(Ai&MI)
7.45

2025

Punjab

Junior IT Specialist | Ethnotech

Feb/2026-present

- Delivered classroom and hands-on technical training across multiple locations in India, including Bengaluru, Mangalore, Chennai, Nagpur, Pune, Bhopal, and Bihar, adapting sessions to different student groups and learning requirements.
- Trained students in C, C++, DSA, Python, HTML, CSS, Tailwind CSS, JavaScript, React.js, and DevOps, combining theoretical concepts with practical coding exercises, mini-projects, and doubt-clearing sessions.

Software Developer intern | Workfall

Nov/2025-Jan/2026

- Worked as a Software Intern at Workfall as a Frontend Developer, building responsive and user-friendly web interfaces using HTML, CSS, Tailwind CSS, and React.js.
- Contributed to live projects by developing reusable components, improving UI performance, and ensuring cross-browser compatibility.

Projects

Automated Ec2 and S3 using Terraform – [project-link](#)

- Developed an automation system to manage Amazon EC2 instances, improving resource utilization and optimizing cloud costs.
- Implemented AWS Lambda functions to automatically start, stop, and terminate instances based on schedules and CPU utilization thresholds.

Skills

- Programming Languages - C, C++, Python, Bash
- Vs code
- AI - AI, Gen AI(prompt Engineering), Machine learning, Deep learning.
- Linux, Git, Github Actions, Jenkins, Aws(ec2, s3, lambda), Docker, Kubernetes, Ansible, Terraform
- Frontend Development using Html, Css, Tailwind, Js, React.js

Certifications

- Devops and Cloud Computing Course - Pwskills

Languages

English – Fluent
Hindi – Fluent
